

LUCAS - Finally Complete

Music by TJ Gyger/Marco Pfeuti/Michael & Christian Lucas

Lyrics by TJ Gyger/Marco Pfeuti/Michael & Christian Lucas/Pirmin Marti

1. Strophe

I never would have imagined
How much a girl like you could change my mind
You opened doors for me
You were my shelter when the rain set in

Bridge

Then you leave me stranded
Caught out in this storm
Deserted and alone

Refrain

Come back and see what you've done
Come back and see what you've done to me
Wish you could understand my world
Then you'd know I could never be complete... finally complete

2. Strophe

You kissed away my tears
Comforted me with sweet embrace
You were there for me
You gave me visions of a better life

C- Part

I had no dream, and no plan
But now I know who I want to be
You showed me how to succeed
But will I ever be complete?
