

# LUCAS - Goodbye

---

Music by TJ Gyger/Marco Pfeuti/Michael & Christian Lucas

Lyrics by TJ Gyger/Marco Pfeuti/Michael & Christian Lucas/Pirmin Marti

## **1. Strophe**

Life is standing still I feel so weak inside  
I try to wash away the pain say what can I do

Wish I could define the thoughts that cross my mind  
It's just like a fireball shot inside my heart

## **Bridge**

Baby I know nothing lasts forever  
Oh baby I know we cannot stay together

## **Refrain**

It's cold inside, baby when I look in your eyes  
All that I can see is a lie  
Good times far behind, love is at the end of the line  
All we can do is just say goodbye

## **2. Strophe**

I gave you everything in my life  
Ready to go all the way until the end of time

In my every dream you're the one for me  
But there just memories so damn' hard to believe

## **C-Part**

Such a long time together  
But even stars don't last forever  
Cause once love has gone  
It's time to move on
