

LUCAS - Just For You

Music by TJ Gyger/Marco Pfeuti/Michael & Christian Lucas

Lyrics by TJ Gyger/Marco Pfeuti/Michael & Christian Lucas/Pirmin Marti

1. Strophe

I'm pushed around, falling to the ground
Wish you'd come and be with me
Don't know what to say, think I'm losing my way
Please gimme me a sign

Bridge

All alone I'm standing here
But I can't wait much longer
Come around, come back into my life
And then I'll let you know

Refrain

That just for you, I'd change my life
Only with you my dreams come true
And just for you, girl I will strive
I got to do it just for you

2. Strophe

I'm lying around, wasting my time
Impatient and longing to see you
Hold my hand I am ready for the climb
Together we will be strong

Bridge

Come around, come back into my life
And then I'll let you know

C-Part

Baby when you see me coming
There is something we must share tonight
Love is in the air I'm running
To hold you in my arms all through the night
